
EMERGENCIAS EN DESASTRES NATURALES
(Terremoto/Tsunami)

1. Social Participation and Disaster Risk Reduction Behaviors in Tsunami Prone Areas.
   Witvorapong N, Muttarak R, Pothisiri W.

2. Challenges for resuming normal life after earthquake: a qualitative study on rural areas of Iran.
   Alipour F, Khankeh HR, Fekrazad H, Kamali M, Rafiey H, Sarrami Foroushani P, Rowell K, Ahmadi S.

3. Communicable diseases surveillance system in East azerbaijan earthquake: strengths and weaknesses.
   Babaie J, Fatemi F, Ardalan A, Mohammadi H, Soroush M.

   Andrews RJ, Quintana LM.

5. Site selection criteria for sheltering after earthquakes: a systematic review.
6. [Response of primary care teams to manage mental health problems after the 2010 earthquake].
   Vitriol V, Minoletti A, Alvarado R, Sierralta P, Cancino A.
   Rev Med Chil. 2014 Sep;142(9):1120-7.

   Tsuboyama-Kasaoka N, Purba MB.

8. Effect of monthly vitamin D3 supplementation in healthy adults on adverse effects of earthquakes: randomised controlled trial.
   Slow S, Florkowski CM, Chambers ST, Priest PC, Stewart AW, Jennings LC, Livesey JH, Camargo CA Jr, Scragg R, Murdoch DR.
   BMJ. 2014 Dec 15;349:g7260.

   Shen WF, Jiang LB, Jiang GY, Zhang M, Ma YF, He XJ.

    Forum on Medical and Public Health Preparedness for Catastrophic Events, Board on Health Sciences Policy, Institute of Medicine.
    Washington (DC): National Academies Press (US); 2015 Apr 06.

    Feo P, Di Gioia S, Carloni E, Vitiello B, Tozzi AE, Vicari S.
    BMC Psychiatry. 2014 Sep 24;14:270.

13. Active disaster response system for a smart building.
    Lin CY, Chu ET, Ku LW, Liu JW.

14. [Comparison of the performance of three prehospital trauma scores in evaluation of injury severity among Lushan earthquake victims].
   Babaie J, Moslehi S, Ardalan A.

16. Restoration of accelerator facilities damaged by Great East Japan Earthquake at Cyclotron and Radioisotope Center, Tohoku University.
   Wakui T, Itoh M, Shimada K, Yoshida HP, Shinozuka T, Sakemi Y.

   Yamamura H, Kaneda K, Mizobata Y.

18. [Epidemic cholera in complex emergencies].
   Campuzano Cuadrado P, Arcos González P.

   Regens JL, Mould N.

20. Disaster medical assistance teams after earthquakes in Iran: propose a localized model.
   Abbasi M, Salehnia MH.
   Iran Red Crescent Med J. 2013 Sep;15(9):829-35.

21. What factors were important for dietary improvement in emergency shelters after the Great East Japan Earthquake?
   Tsuboyama-Kasaoka N, Hoshi Y, Onodera K, Mizuno S, Sako K.

22. Emergency care for acute myocardial infarction in disasters.
   Ishii H, Yamamoto T, Murohara T.

23. Emergency care of acute myocardial infarction and the great East Japan earthquake disaster.

24. Challenges to the programmatic implementation of ready-to-use infant formula in the post-earthquake response, Haiti, 2010: a program review.
25. [Role of pharmacists during serious natural disasters: report from Ishinomaki, the disaster-struck city].
   Tanno Y.

26. [Role of pharmacists in disaster medicine: required knowledge and skills].
   Nakura H.

27. Organization and implementation of mass medical rescue after an earthquake.
   Zhang YL.

28. Factors affecting household adoption of an evacuation plan in American Samoa after the 2009 earthquake and tsunami.
   Apatu EJ, Gregg CE, Richards K, Sorensen BV, Wang L.

   Rainey JJ, Sugerman D, Brennan M, Cadet JR, Ernsly J, Lacapère F, Danovaro-Holliday MC, Mubalama JC, Nandy R.

   Int Nurs Rev. 2013 Dec;60(4):528-35.

31. [Comparative analysis of the clinical characteristics of orthopedic inpatients in Lushan and Wenchuan earthquakes].

32. Occurrence of cardiovascular events after the 2011 Great East Japan Earthquake and tsunami disaster.

33. Study of the severity of musculoskeletal injuries and triage during the 2005 Pakistan earthquake.
   Awais S, Saeed A.
34. Effective use of household water treatment and safe storage in response to the 2010 Haiti earthquake.
   Lantagne D, Clasen T.

35. [Clinical characteristics of pediatric victims in the Lushan and Wenchuan earthquakes and experience of medical rescue].

36. [Types of pediatric trauma in earthquake and key points of treatment].
   Zhang TC.

37. Deterioration in regional health status after the acute phase of a great disaster: respiratory physicians' experiences of the Great East Japan Earthquake.
   Ohkouchi S, Shibuya R, Yanai M, Kikuchi Y, Ichinose M, Nukiwa T.

38. Analysis of burn cases observed after the 2011 Van earthquake.

39. [The particularity of rescue technology and equipment in earthquake confined space].
   Liu YH, Yang HN, Zheng JC.

40. [Discussion about health assessment and epidemic prevention mode for China National Earthquake Disaster Emergency Search and Rescue Team in Lushan earthquake].

41. [Medical rescue of China National Earthquake Disaster Emergency Search and Rescue Team in Lushan earthquake].

42. [Implementation of telemedicine services in the earthquake disaster relief: the best medical experts provide direct medical service to the affected people].
   Li TS, Chai JK.

43. [Centralization, dynamic triage and multidisciplinary teamwork on the platform of critical care medicine: the key of success during the rescue of 4/20 Lushan earthquake victims].
   An YZ.
44. *Tuberculosis exposure among evacuees at a shelter after earthquake, Japan, 2011.*

45. *Impact of a large-scale natural disaster on patients with chronic obstructive pulmonary disease: the aftermath of the 2011 Great East Japan Earthquake.*

46. *Infectious complications in patients with crush syndrome following the Wenchuan earthquake.*
   Zhang H, Zeng JW, Wang GL, Tu CQ, Huang FG, Pei FX.

47. *[Epidemiological profile of deaths after the 2010 earthquake in Chile].*

   Guo Y, Su XM.

49. *Assessing disaster preparedness among latino migrant and seasonal farmworkers in eastern North Carolina.*
   Burke S, Bethel JW, Britt AF.

50. *An overview of respiratory medicine during the Tsunami Disaster at Tohoku, Japan, on March 11, 2011.*
   Nukiwa T.

51. *Emergency/disaster medical support in the restoration project for the Fukushima nuclear power plant accident.*

52. *Personality and resilience associated with perceived fatigue of local government employees responding to disasters.*
   Kitamura H, Shindo M, Tachibana A, Honma H, Someya T.
53. Assessing the impact of workshops promoting concepts of psychosocial support for emergency events.
   Johal S.
   PLoS Curr. 2012 Sep 17;4

   Aoki A, Aoki Y, Harima H.
   Transl Psychiatry. 2012 Oct 9;2

55. Hyponatraemia in patients with crush syndrome during the Wenchuan earthquake.

56. Lessons learned from the Japan earthquake and tsunami, 2011.
   Fuse A, Yokota H.

57. [Evaluation of the patients in Van Training and Research Hospital following the 2011 Van earthquake in Turkey].
   Dursun R, Görmeli CA, Görmeli G.

58. The clinical profile of musculoskeletal injuries associated with the 2011 Van earthquake in Turkey.
   Görmeli G, Görmeli CA, Güner S, Ceylan MF, Dursun R.

59. Mental health in L’Aquila after the earthquake.
   Stratta P, de Cataldo S, Bonanni R, Valenti M, Masedu F, Rossi A.

60. Pain after earthquake.

61. High prevalence of deep vein thrombosis in tsunami-flooded shelters established after the great East-Japan earthquake.
   Ueda S, Hanzawa K, Shibata M, Suzuki S.

62. Stress-induced intestinal necrosis resulting from severe trauma of an earthquake.
63. \textit{Peritraumatic distress, watching television, and posttraumatic stress symptoms among rescue workers after the Great East Japan earthquake.}  
Nishi D, Koido Y, Nakaya N, Sone T, Noguchi H, Hamazaki K, Hamazaki T, Matsuoka Y.
